IDEATION PHASE
Define the Problem Statements

Date	02 March 2026
Team ID	
Project Name	Exploration of Electricity Consumption Patterns
Maximum Marks	2 Marks

Customer Problem Statement Table:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A Residential Consumer	Track my household electricity usage to reduce monthly bills.	The utility bill only shows total consumption, not detailed breakdowns.	I don't know which appliances or time periods are driving high usage.	Frustrated and powerless to make informed changes.
PS-2	An Energy Policy Analyst	Identify peak demand hours across regions to design better load-balancing policies.	The raw meter data is scattered and lacks consolidated visualization.	It's difficult to compare seasonal and geographic variations without an interactive dashboard.	Uncertain and hesitant to recommend policy changes without clear evidence.

I am	Describe customer with 3-4 key characteristics - *who are they?*	Describe the customer and their attributes here
I'm trying to	*List their outcome or "job" the care about - what are they trying to achieve?*	List the thing they are trying to achieve here
but	Describe what problems or barriers stand in the way – *what bothers them most?*	Describe the problems or barriers that get in the way here
because	Enter the "root cause" of why the problem or barrier exists – *what needs to be solved?*	Describe the reason the problems or barriers exist
which makes me feel	Describe the emotions from the customer's point of view – *how does it impact them emotionally?*	Describe the emotions the result from experiencing the problems or barriers
