Project Design Phase-II
Technology Stack (Architecture & Stack)

Date	31 January 3035
Team ID	
Project Name	Exploration of Electricity Consumption Patterns
Maximum Marks	4 Marks

Technical Architecture:

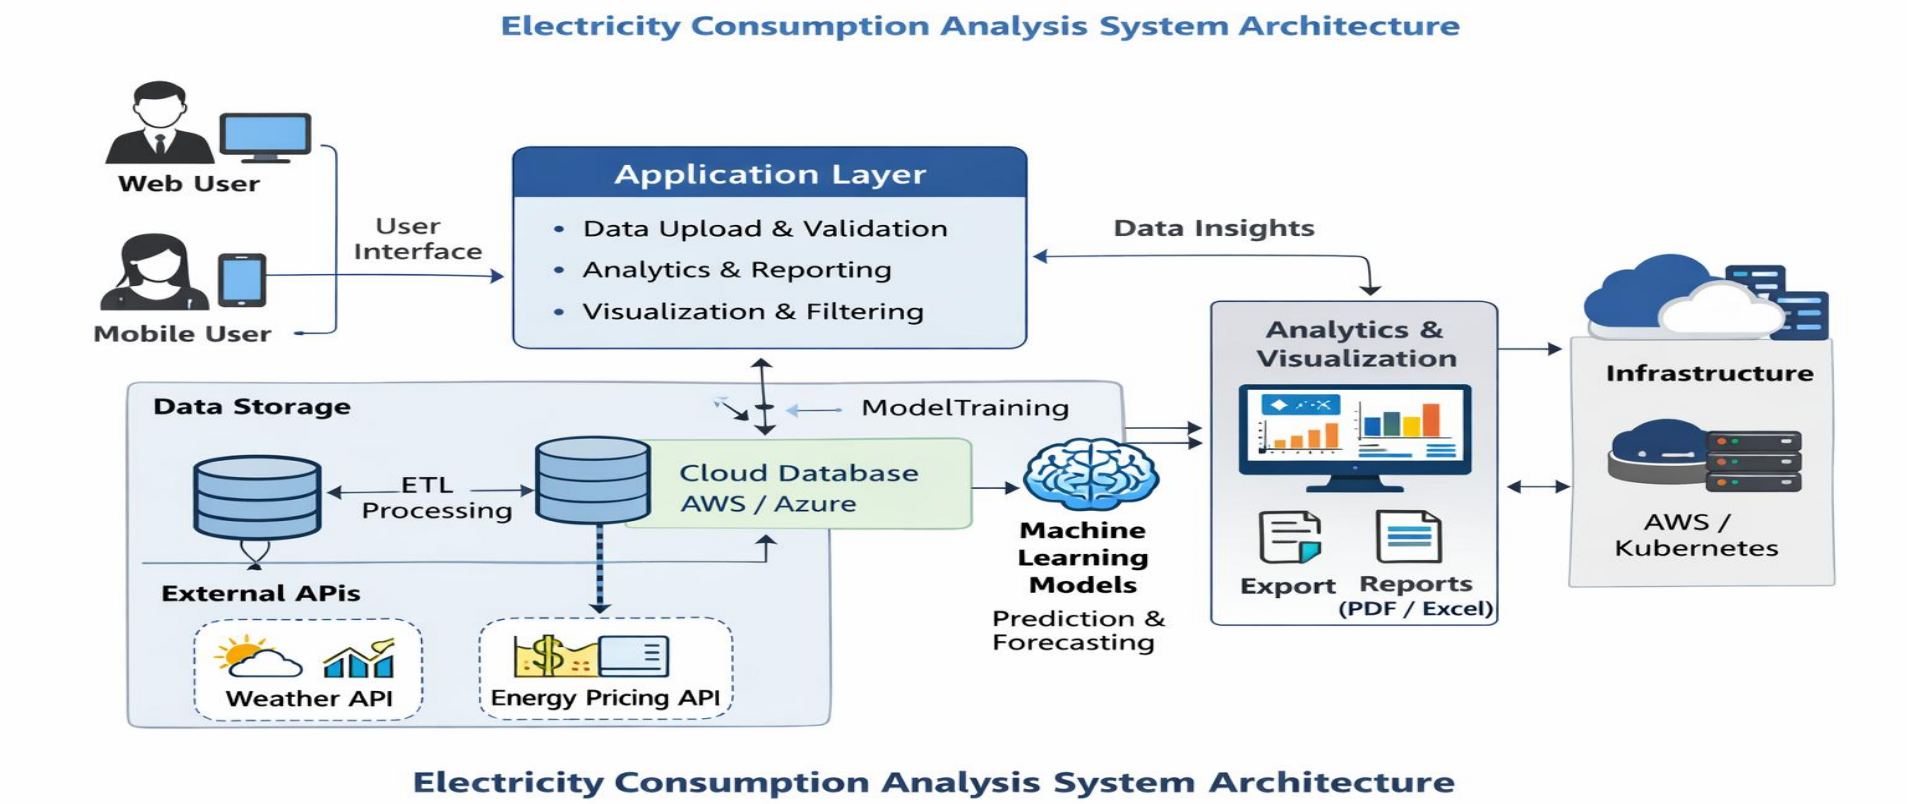

Table 1: Component

S.No	Component	Description	Technology
1.	User Interface	How users interact with the dashboard (web UI, mobile app).	HTML, CSS
3.	Application Logic-2	Logic for data upload, validation, and preprocessing.	Python, Pandas
4.	Application Logic-3	Logic for analytics and reporting.	Tableau, Python
5.	Application Logic-3	Logic for visualization and interactive filtering..	Tableau Dashboards
6.	Database	Stores structured electricity consumption data.	MySQL
7.	File Storage	Stores raw CSV files and exports.	Local Filesystem

Table-2: Application Characteristics:

S.No	Characteristics	Description	Technology
1.	Open-Source Frameworks	Frameworks used for development and visualization.	Tableau Public
2.	Security Implementations	Access control, encryption, secure login.	SHA-256, IAM, HTTPS.
3.	Scalable Architecture	Supports large datasets and multiple users.	Technology used
4.	Availability	Ensures uptime and redundancy.	Load balancers, distributed server
